JUDGES' FEEDBACK

JUSTIN HARDY - DIRECTOR OF
DESIGN & DEVELOPMENTS

JAMIE OLIVER RESTAURANT GROUP

Fantastic presentation document & formatting.

The level of creativity & understanding of the Jamie's brand was a real credit to the team - love the visuals.

GAVIN BEESLEY - CONSTRUCTION
PROJECT MANAGER

JAMIE OLIVER RESTAURANT GROUP

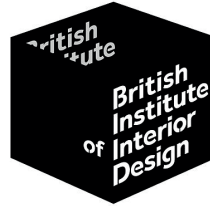

Drummond have prepared a fantastic design and presentation document and clearly undertaken their research with great care and consideration.

The design for the restaurant was fantastic and would certainly create a very viable, successful and dynamic restaurant environment.

SUSIE RUMBOLD - PRESIDENT

BRITISH INSTITUTE OF INTERIOR DESIGN

I absolutely loved the way you laid out your presentation with the headers and footers of old brick and tile, which you then used in the Bar concept which was very strong. It really brought the project to life and you could immediately feel the potential in your chosen site.

Your space planning was exemplary, really well considered and with great attention to detail. I also loved your ideas for the outdoor landscaping and signage, which was perfect for the host building, totally on brand for Jamie, and provided a real sense of arrival for the customer.

JOHN FIELD - PRESIDENT

CHARTERED INSTITUTION OF BUILDING SERVICES ENGINEERS

This presentation is full of interesting ideas and some helpful presentation touches - the bar area collage and outdoor landscaping proposal presented relevant design ideas in an attractive and informative way. The proposed site and design showed good promise for a successful restaurant.

AMANDA CLACK - PRESIDENT

THE ROYAL INSTITUTION OF
CHARTERED SURVEYORS

This submission was very highly commended and a really close contender.

A really well considered design supported with a great focus on materials used and imagery of how the restaurant will look and feel.

The team provided a really strong concept with a plan layout that was well designed and exceptionally well thought through.

Loved the site selection process the team demonstrated they had gone through, the fun mood boards, concept designs, landscaping and overall imagery – these were all exceptional.

The flow in the presentation got lost in places, and there was less on sustainability, supply chain, DDA and the locational elements were all less well detailed than other entrants.

It would have been good to have been introduced to the team behind this great design and they really should be commended for a truly great submission.

CHRIS CHIVERS - PRESIDENT

CHARTERED INSTITUTE
OF BUILDING

The future of the UK construction industry will be in safe hands if can continue to encourage children to produce this excellent standard of design and innovation.

GARY MEES - PRESIDENT

CHARTERED INSTITUTE OF
ARCHITECTURAL TECHNOLOGISTS

Produced an impelling case for an ideally located restaurant with a believable design proposal. The client would give this one some serious thought.

CHRIS WILLIAMSON -
BUSINESS SKILLS AMBASSADOR

ROYAL INSTITUTE OF BRITISH ARCHITECTS

Fantastic images and well presented. A very close second. Well done.
